

**CLASSES I TO IX**

Ref: DPSG/Cir/18-19/Admin:119 ,

Date: 22.11.18

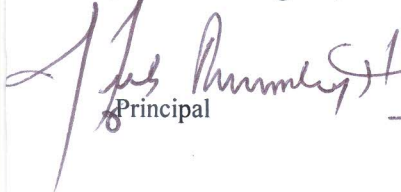

Dear Parent,  
Greetings!!!

This is in furtherance to the circular dated 24.08.18, Ref: DPSG/Cir/18-19/Admin: 75 regarding inoculation of school going children with measles-rubella (MR) vaccine. The state of Assam is conducting the MR vaccination campaign as part of Govt. of India drive and national strategy to eradicate Measles and control Rubella in the country. As per Ministry of Health & Family Welfare dept. guidelines, all children aged 9 months to less than 15 years of age have to mandatorily be provided with an additional dose of MR vaccine, regardless of any previous vaccination status or history of illness.

In this connection, we would like to inform you that authorized doctors and health department personnel will visit the school on 27<sup>th</sup> and 28<sup>th</sup> November'18 for 2<sup>nd</sup> phase of vaccination drive. In case your ward has already been vaccinated he/she needs to submit the Measles & Rubella vaccination certificate issued by the Govt. of Assam to the class teacher on or before 26-11-2018. Failing to do so your ward will have to be vaccinated as per the guidelines issued from the Office of the Joint Director of Health Services, Office of Deputy Commissioner as well as from the Inspector of Schools, Kamrup Metro, Guwahati. In case you have misplaced the same kindly give an application to the class teacher for school record.

Your full co operation and support in this regard will be highly solicited.

With sincere regards,

  
Principal
